

## RECOVERY MADE FROM RECENT DEPRESSIONS

All Parts of the List Aided While Some of the Specialties Make Rapid Advances—Other Stocks Hurt

NEW YORK, Feb. 25.—The stock market made further recovery from the recent price depression. The improvement embraced all parts of the list excepting a few issues, whose increasing weakness was due to unusual conditions. Point gains were the rule in speculative and investment shares. Some recently active specialties like Mexican Petroleum, American Tobacco and minor stocks scored more material advances. Weak features included New Haven, Southern Railway, Preferred, Pressed Steel Car Preferred, all touching new minimum prices. Pressed Steel declined eight points. Baltimore and Ohio common also came within a fraction of range of its new minimum of 67 while May Department stores showed a lack of support with a peculiar decline of almost nine points. All foreign exchange markets were more stable. Domestic monetary movements show a slight hardening of the rate for long time accommodations but interior banks continue to lend superabundant funds freely.

The probable success of the American Copper note offering, which coincides with the advance in price of copper metal to 15 cents is the most interesting financial development.

Alchison System presented the January statement. It was chiefly noteworthy for the small increase in operating expenses enabling it to show a net increase of profits of \$270,000.

The London markets were heavy on high grade investment issues inclining to lower levels. Bonds were firm except for some lower priced speculative issues. Total sales, par value, was \$2,620,000. United States registered bonds declined a fourth on call.

(By L. J. Overlock.)

BOSTON, Feb. 25.—Dealers were light with prices unchanged to a fraction higher. The market lacks any real moves within narrow limits. Copper shares were quiet at practically unchanged prices. Hunt & Superior was the only active feature with a net gain of 1 point.

In the curb list Verde Extension was strong and active. Buying orders continue in good volume with moderate offerings by profit takers.

Palme, Weber & Co.

## ROYAL PRESENTING PAID IN FULL TODAY

This will be a big night at the Royal where the Eugene Waters stage masterpiece, and great success "Paid in Full" will be seen acted by members of the original cast, including Tully Marshall. The popularity of this play is so well known that it is not necessary to go into full details regarding this production. Manager Evans requests his patrons to come early in order to start with the beginning of the play. In the afternoon the first show will begin at 1:15 and at night starting at 6:30. In addition to this big special feature a screening of the comedy "Wipe Your Feet" will be shown in order to make this Friday program one of the strongest ever shown at the Royal.

The Royal is playing to packed houses nightly and the management efforts to please his patrons is rapidly great success. You will miss a great treat if you do not attend today's performance.

## How to Fight Tuberculosis

In a paper read last year before the Beaver County Medical Society and published in part in the *Lancet*, Dr. J. W. Calkins, of San Antonio, Texas, a physician who has devoted much time to the study of tuberculosis, said: "Since time immemorial, three-fourths of all the mineral substances of the human body, they must be supplied in the foods or supplemented in mineral preparations, or natural starvation causes with tuberculosis unchecked. The widespread and unchecked spread of tuberculosis and other preventable diseases is due largely to the deplorable (time-lacking) conditions of malnutrition throughout the civilized world."

From another authoritative source comes justification for the use of lime in the treatment of tuberculosis.

Since this is one of the ingredients of the success attending the widespread use of this remedy, doubtless is due to the combination of this salt in such a way as to render it easily assimilable. It contains stomach disturbances, and since it contains neither opiates, narcotics nor habit-forming drugs, it is safe to try.

Edmund's Alternative has effected remarkable results in numerous cases of pulmonary tuberculosis (consumption) and other chronic affections of the throat and bronchial passages. In many instances such conditions, apparently, have yielded completely to it.

In case your druggist is not of it, ask him to order, or send direct to the Edmund Laboratory, Philadelphia.

## TWO BILLS ONLY DEMAND EXTRA SESSION

If Mine Tax and Land Legislation Could be Disposed of Other Matters Would Permit Adjournment

PHOENIX, Feb. 25.—With fifteen days in which the present legislature must conclude their consideration of a multitude of bills, gossip concerning an extra session is heard on all sides. If it were possible for the house and senate to agree concerning two bills—mine tax and a bill defining the land policy—no extra session would be required and all pending legislation could easily be disposed of and the appropriations adjusted. In view of today's developments which are encouraging towards an agreement on the mine tax bill, it is extremely difficult to forecast whether the extra session will be necessary. One thing positive is known and that is that the end of the present week will have seen matters in such condition that forecast can be made. The cattlemen have been partially won over for a special mine tax bill and they have been very influential in the effort to secure supporters for the bill from the Maricopa County delegation. It is possible that the pending Mahoney bill may not be agreed to, but the plan of having a special statute for the assessment of producing mines may be agreed to, the exact form of the statute even being provided for in a bill which may during the present week, come from a Maricopa county member.

If such a situation can be brought about those measures urged by the labor numbers which will not too seriously cripple prosperity or the efforts generally being made throughout the state to bring prosperous time will be passed—generous appropriations provided for the educational and agricultural institutions, the mine tax bill finally adopted and the session concluded.

The agriculturalists themselves are not entirely agreed as to what is best for their various institutions. The senate has finally killed the bill which provides for the abolishment of the agricultural experimental stations, and today Webb, of Maricopa county, introduced a bill abolishing the state commission of agriculture and horticulture and vesting the powers and duties of that board in the Arizona State Fair Commission. The salary of the state fair commissioners is not increased by the Webb bill, thus saving to the state the compensation heretofore paid the members of the present agricultural and horticultural commission.

Almost as soon, however, as a bill makes its appearance to abolish one commission, there is a proposal to create a new commission. The new office today is that of state architect and superintendent of buildings, provided for in a bill introduced by Senator Chase of Greenlee county at the request of the Phoenix Association of Architects. Under the bill the architect shall be appointed by the governor and receive an annual salary of \$4,000. The bill also provides for a secretary at a salary of \$1,500 a year and the duties of his office require the architect to provide all plans and specifications for the erection of new buildings and new construction work required by law to be constructed at the expense of the state. The requirements of the official holding the position created are that he shall be a skilled architect, a resident of the state for five years preceding his appointment and at the time of his appointment actively engaged in profession of architecture.

## APPROVE THE VIEWS OF M. J. CUNNINGHAM

PHOENIX, Feb. 25.—A suggestion made by M. J. Cunningham, a member of the board of directors of the Warren District Commercial Club, before the disincorporation of the organization of the defacement of Arizona's natural scenery, is meeting with universal approbation in Bisbee. The matter has been taken up with Governor Hunt and with the members of Cochise county's legislative delegation.

The suggestion came as the result of the glaring advertisements placed on rocks along the highways of Cochise county and particularly along the Bisbee-Tombstone link of the state highway. These signs of various sizes and colors and painted on the rocks along the side of the road are claimed to be detrimental to the natural beauty of the state.

\$125,000.00 option loan fund was formally closed Monday, only \$28,000 having been lent.

## CORN MAD? USE "GETS-IT" IT'S SURE

Makes Corns Vanish Like Magic! A hard cap of skin makes up every corn. When you put 3 drops of "GETS-IT" on it, it shrivels up and comes right off—and there's your corn—gone by thunder! Simple as taking off your hat! That's why corns—mills have gone wild over "GETS-IT."

—nothing like it ever known. Some folks, to this day, putter around with bandages, sticky tape, thick plasters, corn "pullers," salves, gouge corns out with knives, snip them with scissors, make them bleed and then howl because they can't get rid of sure corns. Use "GETS-IT." There's nothing to do but apply 3 drops. The work is done. "GETS-IT" does the rest. No pain, no fussing, no changing shoes, no limping, it never fails. Try it tonight for any corn, callus, wart or bunion. Be sure that you get "GETS-IT" and nothing else.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Sold in Bisbee and recommended as the world's best corn cure by Phelps, Dodge Mercantile Co.

### GERMANS "IN DUTCH"

NEW YORK, Feb. 25.—Richard Peter Spiegler, a retired German sea captain and a reservist of the German navy, was arrested by agents of the department of justice, charged with fraudulently obtaining an American passport. Vincent Cook, of Hoboken, N. J., was also taken into custody. Additional arrests are expected.

Spiegler it is alleged, obtained a passport under the new regulations adopted after the discovery of the recent alleged conspiracy that furnished German reservists with American passports. Six arrests were made that time. The defendants now await trial. Spiegler and Cook were sent to jail in default of \$15,000 bail.

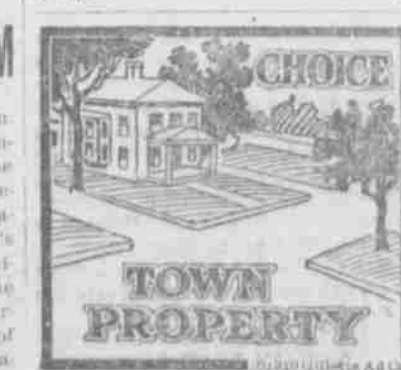

## MOTHER! IS CHILD'S STOMACH SOUR, SICK?

If tongue is coated or if cross, feverish, constipated give "California Syrup of Figs."

Don't withhold your faithful, peevish child. See if tongue is coated, this is a sure sign his little stomach, liver and bowels are clogged with waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stoic, sickish, indigestion, flatulency, give a teaspoonful of "California Syrup of Figs" and in a few hours all the food waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative" and mothers can rest easy after giving it because it never fails to make their little "mischiefs" clean and sweet.

Keep it handy. Mother! A little green today saves a sick child tomorrow but not the medicine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs" which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here so strictly look and see that yours is made by the "California Syrup Company." Hand back with contempt any other. 67c.

## The Average Increase in Population

of cities and towns everywhere is 25 per cent in ten years. This means that new homes will have to be built and more stores provided. This will increase the value of land at the edge of our city.

We Have Some Choice Property that can be bought on easy terms. It will make you a beautiful home and will continue to increase in value. Let your property with us for quick selling.

## LAST CALL FOR MEN'S Winter Weight Suits

—If you want one of these splendid Suit bargains you'll have to say so pretty soon, for it's getting along to the point now where we'll have to turn our attention to our friends and patrons who do the early picking of our new spring styles.

—There is only a limited number of these suits, and we'll continue to sell them at the sale prices the remainder of the week, which are absurdly low when you consider their real value and original selling prices.

\$10.00 FOR MEN'S REGULAR \$15.00 SUITS

\$15.00 FOR MEN'S REGULAR \$20.00 SUITS

—These are days when your money is worth so much for good clothes buying that you'd rather have the clothes than the coin. On many of these suits your dollar will do almost double duty.

—Even though you needn't economize you ought to come here and see these splendid suits priced at \$10 and \$15. It will be fully six months before you will have another equally good opportunity.
